

Landis Homes Announcement February 15, 2021

Landis Homes remains committed to the health and safety of our residents, team members and the community we serve. We have followed and will continue to follow, the guidance set forth by the Pennsylvania Department of Health (DOH), Centers for Disease Control and Prevention (CDC), and Centers for Medicare & Medicaid Services (CMS) to minimize the risk of Coronavirus transmission within our community.

Unfortunately, today in our universal Point of Care testing, a PC team member tested positive. This means that Aspen, Birch, and Cedar are now in the yellow stage and Personal Care must move back to pre-step in our reopening stage. Due to this, Residents will be served meals in their rooms and activities will be done one-on-one. Salon services, podiatry care, and other non-essential visits must cease at this time. We will be testing residents in all 3 households. Shed visits will also be ended for this time period. Window visits will be permitted with scheduled appointments.

Landis Homes has reported these cases to the appropriate regulatory agencies and is following guidelines in accordance with regulations.

Landis Homes is committed to being transparent in keeping residents, families, team members and our community aware of changes related to COVID-19. We want to reassure everyone that we are acting on this fluid situation. Landis Homes will remain vigilant in monitoring Healthcare residents at a minimum of twice daily.

Current mitigating action to prevent or reduce the risk of COVID-19 transmission include, but are not limited to:

- Visitors restricted to essential personnel or services and compassionate care visits, after symptom screening and required education
- Symptom screening for team members before assigned shift
- Universal masking for all team members and use of personal protective equipment (PPE), including eye protection with each resident encounter
- Active symptom screening for all residents, masking when in the presence of others, as tolerated, limited movement outside houses or rooms to essential activities only, and modified dining and life enrichment programs to eliminate group gatherings
- Residents are admitted or readmitted to a designated area, staffed by designated team members, for a minimum of 14 days of monitoring including transmission-based precautions.
- Implementing universal COVID-19 testing for residents and team members
- Implementing red, yellow, and green zones for cohorting residents.

Please know that the health and safety of our residents and team members is our primary concern. We are blessed by the support and encouragement of the residents and family members, board members and supporters who are part of the Landis Homes family.

Check the Landis Home website for regular COVID-19 updates. Family and friends have access to videos and written information at www.landishomes.org/COVID

Residents and family members may contact Jenny Sheckells with questions or concerns at jsheckells@landis.org or 717.381.3573.
