

## Landis Homes Announcement January 1, 2022

Landis Homes remains committed to the health and safety of our residents, team members and the community we serve. We have followed and will continue to follow, the guidance set forth by the Pennsylvania Department of Health (DOH), Centers for Disease Control and Prevention (CDC), and Centers for Medicare & Medicaid Services (CMS) to minimize the risk of Coronavirus transmission within our community.

**On January 1, 2022, during required outbreak testing, a Healthcare team member tested positive for COVID-19. The team member did not work in resident care areas during the infectious period. Another Healthcare team member reports having a positive COVID test at Urgent Care today. This team member did work during the past few days but the risk to residents is felt to be low due to use of masks and other protective gear. We continue with ongoing OUTBREAK testing for Healthcare residents and team members during this time.**

Landis Homes is reporting these cases to the appropriate regulatory agencies and is following guidelines in accordance with regulations.

Landis Homes is committed to being transparent in keeping residents, families, team members and our community aware of changes related to COVID-19. We want to reassure everyone that we are acting on this fluid situation. Landis Homes will remain vigilant in screening Healthcare residents for signs and symptoms of Covid-19 at least daily.

Current mitigating action to prevent or reduce the risk of COVID-19 transmission include, but are not limited to:

- Visitors complete symptom screening and required education
- Symptom screening for team members before assigned shift
- Universal masking for all team members and use of personal protective equipment (PPE) as needed.
- Active symptom screening for all residents, masking when in the presence of others as tolerated, limited movement outside of household.
- Residents are admitted or readmitted to a designated area, staffed by designated team members, for a minimum of 14 days of monitoring including transmission-based precautions based on vaccination and exposure status.
- Implementing universal COVID-19 testing for unvaccinated team members.

- Implementing red, yellow, and green zones for cohorting residents and/or transmission-based precautions for exposed unvaccinated residents.

Please know that the health and safety of our residents and team members is our primary concern. We are blessed by the support and encouragement of the residents and family members, board members and supporters who are part of the Landis Homes family.

Check the Landis Home website for regular COVID-19 updates. Family and friends have access to videos and written information at [www.landishomes.org/COVID](http://www.landishomes.org/COVID)

**Residents and family members may contact Jenny Sheckells with questions or concerns at [jsheckells@landis.org](mailto:jsheckells@landis.org) or 717.381.3573.**
