Mitigating actions implemented to prevent or reduce the risk of transmission include, but are not limited to:

- Visitors are required to complete symptom screening and will not be allowed entry if symptoms are present. If an outbreak occurs, signage will be posted to notify but visitation can still occur. Masks must be worn to enter and visitors may only visit in the resident's room.
- Symptom screening for team members continues before assigned shift
- Universal masking for all team members and use of personal protective equipment (PPE), as needed, following guidance from Pa Dept. of Health.
- Active symptom screening for all residents, masking when in the presence of others, as tolerated. Unvaccinated residents may be placed in transmission-based precautions if an

outbreak occurs.

- Depending on Covid-19 vaccination/booster status, a Resident might be admitted or readmitted to any household with transmission-based precautions in place for a minimum of 10 days. Transmission-based precautions may also be initiated upon admission or readmission if the Resident has had a known exposure to Covid-19.

**As a reminder...**
