Mitigating actions implemented to prevent or reduce the risk of transmission include, but are not limited to:

- Visitors are required to sign in and will be encouraged to defer visitation if symptoms are present. If an outbreak occurs, a message will be posted on the kiosk to notify but visitation can still occur. **Masks must be worn to enter and visitors are encouraged to visit in the resident's room.**
- Kiosk screening for team members continues before assigned shift
- Universal masking for all team members and use of personal protective equipment (PPE), as needed, following guidance from Pa Dept. of Health.
- Active symptom screening for all residents, masking when in the

presence of others, as tolerated, while in HIGH transmission level.

- Depending on Covid-19 exposure or positive test status, a Resident might be admitted or readmitted to any household with transmission-based precautions in place for a minimum of 10 days.
- Outbreak testing will be conducted on an as needed basis. An outbreak is defined as one healthcare team member or one healthcare resident who tests positive for Covid-19, and who may have exposed other team members and/or residents.
