Welcome!

At Warfel Construction, our goal is to make your home customization experience as smooth and stress-free as possible. We are committed to helping you create a comfortable, personalized space you'll be proud to call home.

This packet is designed to provide basic information about your customization options, including both standard features & available upgrades.

As you review the contents, please keep the following in mind: Any images or renderings included are intended solely to illustrate specific products. To see how these selections may look within preset or custom color palettes, we encourage you to visit our virtual design studio website. There, you'll find a comprehensive array of customization tools to help visualize how selections work together throughout your future home.

Each page conveniently displays whether the products are standard or an upgrade in the top right corner. "Room dependent" indicates that the product is standard in some rooms, but an upgrade option for others.

114 years in business, Warfel was founded in 1911 by David S. Warfel in Lancaster, Pennsylvania. Our values are the foundation of our mission — **Clients For Life®** — to serve our clients with a level of skill, humility, and dedication which builds lasting relationships. We pursue this mission in all we do.

Honesty, Integrity, Accountability, Teamwork, Initiative
